THE SKEIN.

BY ROBERT BUCHANAN.

Slip, yes, slip your skein, my Kitty,
O'er my hands, and wind, and wind,
All the while, with little pity,
Tangling, tangling, heart and mind;
Kitty! eyes upon the wool?
Not on me, my beautiful!

Now you droop you eyes completely,
Winding; winding, dreamilie;
Wherefore, wherefore, smile so sweetly
On a thing that cannot see?
If you MUST smile, smile this way!
I will bear it as I may.

And the rosebud fingers flitting
Swiftly about the colored ball!
How my heart beats time whilst sitting;
Still I try to bear it all;
Kitty, do you know or care
'Tis my heart you're winding there?

Kitty, I am in a vision!
All the world to mist doth die;
Only, in an airy Elysian;
Little fairy fingers fly;
Surely, if they flit too near,
I shall catch and kiss them, dear!

Tangled! pout not, frown not, Kitty!
Though I gladly bear the pain;
For your anger is so pretty;
It may make me sin again.
There! 'tis well! Now, wind and wind,
Tangling further heart and mind!

Now, 'tis done! the last thread lingers
Sadly from me slow to part;
Can'st thou see that in my fingers
I am holding up my heart?
Wind and wind! I do not care!
Smile or frown! and I will bear!

Ah! so fast and quick you wind it,
I no more can keep it mine;
Do you wonder that you find it
Throbbing now, close, close to thine;
Tangled, tangled are the twain;
Kiss, kiss, kiss them free again!

THE BASIN OF THE ATLANTIC OCEAN.

The basin of the Atlantic Ocean is a long trough separating the old world from the new, and extending probably from pole to pole. This ocean furrow was probably scored into the solid crust of our planet by the Almighty hand, that there the waters which he called seas might be gathered together, so as to let the dry land appear, and fit the earth for the habitation of man.

From the top of Chimborazo to the bottom of the Atlantic, at the deepest place yet reached by the plummet in the northern Atlantic, the distance in a verticle line is ten miles. Could the waters of the Atlantic be drawn, so as to expose to view this great gash, which separates continents and extends from the Arctic to the Antarctic, it would present a scene most rugged, grand and imposing.

The very ribs of the solid earth, with the foundations of the sea, would be brought to light, and we would have presented to our view, in the empty cradle of the ocean, a thousand fearful wrecks, with that fearful array of dead men's skulls, great anchors, heaps of pearls and inestimable stones, which in the poet's eye he scattered in the bottom of the sea, making it hideous with the sights of ugly death.

The deepest part of the North Atlantic is somewhere between the Bermudas and the Grand Banks. The waters of the Gulf of Mexico are held in a basin, about a mile deep in the deepest part. There is at the bottom of the sea between Cape Race in New Foundland and Cape Clear in Ireland, a remarkable stepple, which is already known as the Telegraphic Plateau.

THE MANAGING WOMAN.—The managing woman is a pearl among women; she is one of the prizes in the lottery of life, and the man who draws her may rejoice the balance of his days. The managing woman can do anything; and does everything well. Perceptive and executive, of quick sight and steady hand, she always knows exactly what is wanting, and supplies the deficiency with a tact and cleverness peculiar to herself. She knows the capabilities of persons as well as things, for she has an infinite knowledge of character. The managing woman, if not always patient, is always energetic, and can never be disappointed into inaction. Though she has to teach the same thing over again, and though she finds her duties dense as boxwood, and hands as inefficient as fishes' fins, still she is never weary of her vocation of arranging and ordering, and never less than hopefull of a favorable result.

READING.—What makes the difference? Some young people of the age of ten to fifteen years, are able to converse intelligently on almost any subject, while others are mum if you speak to them of anytning but the most frivolous matters. What makes the difference? You might well ask, what makes the difference in the appearance of the half famished boy, that is kept on a scanty supply of the meanest fare, and the one who has plenty of nourishing food. The youth who can converse only on the most trifling subject, has starved his mind.

WE once had an acquaintance who was forever pestering somebody with conundrums. Indeed, his mind seemed to settle upon no other topic, go where he would—the everlasting "Why is," was ever the uppermost thought of his day dreams or night slumbers. Going into a church of a Sunday, he took a seat under the "droppings of the sactuary," and braced himself to the task of listening. He sat quietly for a time, and after a little, went off into the land of dreams. Presently the minister had occasion to utter the scriptural passage, "How are the mighty fallen?" and to make it emphatic, repeated the sentence in loud and distinct tones. Whereupon the slumberer opened his eyes, and looking up inquiringly to the preacher replied in the meekest possible, tone of voice, "I give it up!"

A PRETTY GOOD WAY.—A clergyman going to a miserly old lady to beg for a worthy object, found himself refused on the ground of poverty. Feigning himself much interested in her story, he expressed great surprise thereat, and said: "I had not thought you in want;" and then taking out some money he said, "here is something that will do for the present purpose; when I call again I will bring you more." The old lady was so enraged that she gave him a good round sum to show him that she did not mean she was a pauper.

AN Irishman who had left his native country and sought an asylum in America because it was the land of liberty, was attacked on his first arrival, in December, by a furious mastiff. He stooped to pick up a stone to defend himself, but the stone was frozen fast. "By my soul," says Pat, "what a swate country, where the dogs are let loose and the stones tied fast."

THE most important bet ever made—the alphabet.

ADVICE TO SKATERS.

1. Never try to skate in two directions at once. This feat has been attempted by beginners, but never successfully. It always ends in sorrow.

2. Eat a few apples for refreshment sake while skating, and be sure to throw the cores on the ice, for fast skaters to break their shins over. Fast skaters are your natural enemies and should not be allowed to enjoy themselves peacefully.

3. Sit down occasionally, no matter where—right in the way of the rest of the party, if you want to. There is no law to prevent a new beginner from sitting down whenever he has an inclination to do so.

4. When you meet a particularly handsome young lady, try to skate on both sides of her at once. This is very pretty and sure to create a sensation. It the lady's big brother is in sight it is well to omit this.

5. Skate over all the small boys at once. Knock 'em down. It makes fun, and—they like it.

6. If you skate into a hole, take it coolly. Think how you would feel if the water was boiling hot.

7. If your skates are too slippery, buy a new pair. Keep buying new pairs till you find a pair that are not slippery.

8. In sitting down, do it gradually. Don't be too sudden, you may break the ice.

9. When you fall headlong, examine the straps of your skates very carefully before you get up. This will make everybody think you fell because your skates were loose. Beginners always do, you know.

10. Wear a heavy overcoat or cloak till you get thoroughly warmed up, and then throw it off and let the wind cool you. This will insure a fine cold that will last you as long as you live.

QUEER EMPLOYMENT.

We heard a pretty good story the other day, where an honest-faced Hoosier went into a fancy store in Cincinnati, in hunt of a situation. The proprietor was sitting in the counting room, with his feet elevated, contemplating life through the softening influence of cigar smoke.

Our Hoosier friend addressed him as follows:

"Do you want to hire any man about your establishment?"

The clerk looked indifferently, but seeing his customer, concluded to have a little fun out of him, so he answered very briskly, at the same time pulling out a large and costly handkerchief, and wiping his nose on it.

"Yes, sir; what sort of a situation do you want?"

"Well, I'm not particular. I'm out of work and almost anything will do for me for a while."

"Yes, I can give you a situation, if it will suit you."

"What is it? What's to be done, and what do you give?"

"Well, I want a hand to chew rags into paper, and if you are willing to set in, you may begin at once."

"Good as wheat! Hand over your rags."

"Here, take this handkerchief and commence with it."

The Hoosier saw the "sell," and quietly putting the handkerchief into his pocket, walked out, remarking:

"When I get it chewed, stranger, I'll fetch it back."

THIS is a good story of a citizen who used to go home late slightly inebriated, and take a lunch usually set out for him by his considerate wife:

One night, beside the usual dish of cabbage and pork, she left a wash-bowl filled with caps in starch. The lamp had long been extinguished when the staggering sot returned home, and, by mistake, when proceeding to satisfy his hunger, he stuck his fork into the wrong dish. He worked away at his mouthful of caps very patiently for some time, but finally, being unable to masticate them, he sang out to his wife—

"Old woman, where did you get your cabbages?—they are so darned stringy, I can't chew them!"

"My gracious," replied the good lady, "if the stupid feller ain't eating up all my caps that I put in starch over night?"

FOOLING AROUND IN THE DARK.—A traveler once arrived at a village inn after a hard day's travel, but the landlord said they were entirely full, and that it was utterly impossible to accommodate him; that his wife had to sleep on the sofa and himself on the floor, but he would see what his wife could do for him. The good woman, on being applied to, said there was a room he might occupy, provided he would agree to one condition, viz: to enter the room late in the dark, and leave it early in the morning, to prevent scandal, as the room was double-bedded and occupied by a lady. This he agreed to. About two o'clock in the morning an awful noise was heard in the house, and our friend, the traveler, was heard tumbling heels over head down stairs.

The landlord, on arriving at the spot, inquired what the matter was.

The traveler ejaculated as soon as he could speak:

"Oh Lord! that woman's dead!"

"I know that," said the landlord, "but how the d——l did you find it out?"

Two Dutchmen lived close together, and they had been fast friends, but they fell out and hated each other like Indians. One of them got sick and sent for his neighbor, saying:

"Hans, I am going to die; will you forgive me, and be friends?"

"Yes, if you die, I will," said Hans, "but if you gets well again, der old grudge will stand good."

A GENTLEMAN who wanted to make a taking speech to a Sunday school, thought he would adopt the colloquial style, and this is what happened:—

"Now, boys, what does a man want when he goes a fishing?"

A shrill voice in the crowd went directly to the point with:

"Wants a bite!"

The gentleman sat down.

TRUE ELOQUENCE.—An Athenian who wanted eloquence, but was very brave, when another had, in a long and brilliant speech, promised great affairs, got up and said, "Men of Athens, all that he has said, I will do."

"THE ocean speaks eloquently and forever," says Beecher. "Yes," retorts Prentice, "and there is no use telling it to dry up."

AN EXCHANGE.—As a well dressed gentleman was passing through one of our parks, a few days ago, puffing a freshly lighted cigar, he was accosted by a ragged urchin, who desired a light for a well-chewed and burned "end." The gentleman stopped, passed the cigar to the boy, who lighted the relic, and quietly handing the latter to the gentleman, made off with the good cigar. The victim looked after the fugitive and his "solace," but "spoke not a word."

A LOVELY girl stepped into a store to buy a pair of mits.

SHOCKING OUTRAGE BY NEGROES IN SOUTH CAROLINA.—About 11 o'clock on Friday night, five negroes came to the store of Mr. M. A. Muldrow, in Darlington district, and rapping up the clerk, Mr. R. Sugs, asked admittance. Mr. Sugs enquired who they were, and receiving the response that they were friends come to trade with him, he opened the door of the store. Four negroes, armed with double-barreled shot guns, entered, and placing their weapons in the corner of the room, commenced examining goods, remarking that they were in the employ of the railroad, had just been paid off, and desired to make purchases to the amount of ten dollars each.—About fifty dollars worth of goods were selected, when one of the number asked Mr. Sugs if he could change a treasury note of the denomination of one hundred dollars. The wife of Mr. Sugs, who was in an adjoining room, heard the remark, and her suspicions being excited by it, she went out of the back door to the house of a gentleman named Wyndham, and requested him to come to the store, and in case any trouble should occur, to render Mr. Sugs what assistance he could. Mr. Wyndham complied, taking a gun with him, and as he reached the store heard the report of a shot. He threw open the door, and was immediately fired upon five times by the negroes. He returned the fire, when they rushed upon him and seized his gun, and a scuffle ensued, during which he managed to effect his escape, and, repairing to Mr. Muldrow's house, reported the condition of affairs. As soon as the latter could dress and arm himself, he ran to the store, accompanied by Mr. Wyndham. There all was quiet, and entering they found the shelves of the store completely stripped, the money desk robbed, and the clerk, Mr. Sugs, lying dead on the floor, a load of buckshot having passed through his head. From this melancholly scene Messrs. Muldrow and Wyndham went to the house of the latter, where they found that Mr. Wyndham's father-in-law had been dangerously shot twice in the head, and his wife in three different places on the person by the same party of negroes.—*Charleston Courier.*

MORE DIABOLISM.—*A Little White Girl Outraged by a Negro.*—One of the most infamous outrages that ever occurred in this city was perpetrated in Cherry alley very recently. A black fiend named Charles Henry, who was in the habit of visiting the house of James Maloney, during the latter's imprisonment for violation of the license law, took advantage of his absence to violate the person of his daughter, a little girl between seven and eight years of age, and communicate to her a most loathsome disease. According to the little girl's statement before Mayor Edwards yesterday afternoon, the black-skinned and black-hearted scoundrel repeated the monstrous crime on last Tuesday night, having in the meantime silenced his victim by threats. The child's condition led to a suspicion that she had been outraged, and upon being interrogated, she made developments which led to the negro's arrest. After a hearing Mayor Edwards demanded two thousand dollars bail for Henry's appearance at court, in default of which he was committed to prison.—*Harrisburg Patriot & Union.*

LORD help the poor, for the Republican party won't! Cries of distress come from all parts of the country. Not only the South, but all the States feel the blight of Radical reconstruction. Our cities are full of suffering men and women, with no money, with no work, and with scarcely anything to eat. Too proud to beg, many are forced to crime, and our New York exchanges record many cases on trial with the plea of "Guilty, to save my children from starvation." Hard times *do* exist. They have been creeping upon us gradually; the Radical policy has been slowly and steadily lapping the blood of the nation—destroying trade and taxing the people—and to-day the country is less prosperous than it was a year ago. Prosperity and good times cannot exist in the North side by side with a miserable, starving, *unsettled* South. A speedy reunion of all the States is the only path to good times.

Nearly three years have passed since the war closed. In all that time the Republican party has been in power. Its military reconstruction plan has been tried, and the result is what we have just stated. It is now time for a change.

A NEW QUESTION.—The committee on elections will soon have a novel contest to consider, and one that will involve the question whether the government of Utah, as administered by Brigham Young, is republican in form. Mr. McGroarty, the candidate of the Gentiles, has arrived here, and is now preparing evidence to submit in contesting the seat of Mr. Hooper, the sitting delegate from Brigham's dominions, who was elected by the saints. Mr. McGroarty claims that the elections, as conducted by the bishops of the Mormon Church, who act as judges at the polls, are not only unfair, but wholly at variance with the mode prescribed by United States law. The evidence will set forth all the peculiarities of the administration of civil affairs by these Mormons.—*Washington Express.*

WHO WINS.—Two Dutchmen once got into a dispute about the English language, each contending that he used it the best. They made a bet, at length, of a barrel of lager and forty pounds of Sweitzer cheese, and appointed a judge to decide between them, and accordingly they began:

"Vell, Chon," said the first, "did it rain to-morrow?"

"I shall tink it vash," said John.

Wasn't that judge in a quandary?

CONTRARIES.—People say they shell peas when they unshell them; that they husk corn when they unhusk it; that they dust the furniture when they undust it, or take the dust from it; that they skin a calf when they unskin it; and they scale fishes when they unscale them. Many men say they are going to weed their gardens, when their gardens are weedy enough already.

A TALL, keen-eyed countryman walked into the court room during the progress of a trial. Stepping up to one of the "ring," he requested that the prisoners might be pointed out to him. The lawyer he accosted being somewhat of a wag, pointed to the jury. The stranger surveyed them critically, when turning to his informer he remarked: "Well, they are a hard looking set, ain't they? I know by their looks they ought to go to the State's prison, every one of them!"

TANNING.—According to the census of 1860, Wayne county produced more leather than any county in the State.—The following are the figures. In the whole State $13,247,000.

Wayne county $2,249,000; Philadelphia, $1,795,000; Monroe, $961,000; Susquehanna, $845,000; Luzerne, $614,000.

TEMPTING FATE.

The New York *Times*, one of the most ably edited Republican papers in the country, sees ruin ahead for its party if Congress persists in its high-handed course. It has warning after warning against this revolutionary policy, and appeals almost daily for measures of a different character—measures calculated to relieve business distress, and impart confidence to the monied interests of the country—and, not least, to save the Republican party from the madness of the blind fanatics and demagogues who are rushing it upon the breakers of destruction. Some of these articles have great point and force—so much so that we cannot resist giving the readers of the COMPILER, and especially such as may, through mere *party* attachment, have been voting against us, the following as a sample of the *Times's* reasoning. Says that journal, in a recent issue:

The action of Congress at this present session will constitute the platform on which the Republican party will go into the next Presidential election. There is a clamorous demand in certain quarters for "bold measures," which can only mean measures calculated by their character to startle the fears and apprehensions of the country. The measures which the House has sent, and is about sending to the Senate for its concurrence, certainly answer this description, and have produced this effect. The utter abolition of the local governments in the Southern States, the virtual deposition of the President from a portion of the constitutional functions of his office, and the instalment of an absolute dictator in his stead, the restriction of the Supreme Court, and the attempt to coerce its decisions in specific cases, are measures not calculated to calm the public confidence in the party which makes itself responsible for them.

What crisis in our national affairs demands resort to remedies so extreme and desperate as these? While the war was raging, while a rebellion of formidable proportions and power menaced our Government with overthrow, many things were done for which the plea of necessity was urged and admitted, for then the plea was at least intelligible. But what does it mean *now*? In what quarter does any such imperative necessity for extreme measures exist? The rebellion is over. The Government is safe. No armed hostility threatens it with overthrow. No public peril overhangs the nation which can only be averted by the extremest measures which desperate States ever dream of resorting to.

And without some such necessity, the Republican party cannot vindicate itself before the people, or retain the power which, without sufficient warrant, they thus assert and exercise. "Bold" measures are tolerated by the people when the people deem them necessary—in presence of some great emergency—though even then they do not pass unchallenged. But they are fatal to any party that resorts to them without being able to demonstrate their essential and inevitable necessity.

The *Times* concludes with the declaration that "*the Republican party is tempting fate*," and "if overthrown now, it is overthrown forever;" that by taking the extreme ground Congress threatens to take, it is alienating from its confidence and support thousands who heretofore sustained its fortunes.

It is to be doubted whether the efforts of moderate papers like the *Times* will have any effect for good upon the revolutionists who rule in Congress; but be that as it may, they cannot fail to have weight with THE PEOPLE—and that will be an important point gained for the country and the party which always sustains it, the old, time-tried Democracy.

PUBLIC meetings are to be held in New York and the other large cities to denounce the revolutionary acts of Congress. All the great business and commercial interests of the country are being seriously imperilled by the attempt of the Radicals to ruin the South and the North together for the purpose of enabling them to elect the next President by negro votes.

PRECEDING the bloody strife in France the dominant party in the Congress of that nation found it necessary to get rid of the Executive, and then the Judiciary, as the dominant party in our day and hour are attempting. The next step to complete the parallel will be to banish or behead the minority in the legislative branch and the work is done. Are we to have the rule of the Jacobins repeated?

ANOTHER GUN!—An election was held in California, a few days ago, to fill the vacancy occasioned by the death of a member of the State Senate. The deceased Senator was a Republican. A Democrat was elected to fill his place. The Golden State continues her adhesion to Democracy.

THE city of Allegheny, this State, held its municipal election on Tuesday week. The Republicans, as usual, carried the day, but by a greatly reduced majority. The Democratic gain over the vote of last year was 649! The ball keeps rolling!

WHEELING, West Virginia, has gone Democratic by an average majority of 500—a gain over last year. The good work goes bravely on!

IT is intimated that Grant may be subjected to court martial for surrendering the war office to Stanton upon the unlawful mandate of the Rump Senate, and without permission from his superior—the President. It is to be hoped, however, that this may not be done. A sort of cheap martyrdom is just what the Radical leaders now want for him, and the petty piece of trickery by which Stanton was put in was evidently concocted between them for that purpose. Let the plotters be disappointed!

THE fine pictures which have heretofore adorned the State Library at Harrisburg, or a number of them, have been removed and taken without any authority to grace the parlor and reception rooms of Hans Geary. The *Patriot & Union* very properly suggests that this matter should be inquired into. They were purposely placed in the Library that the public might see them.

IT is beginning to creep through the heads of Radicals and Republicans that the extreme measures proposed by Congress, will unsettle the country and produce widespread disaster, and protests by leading business men are going up to stay the mad course of the revolutionary body.—Bondholders, look out.

THE Portland *Argus*, which was one of three or four Democratic papers that hoisted Grant's name for President, has at last hauled it down with sufficient disgust!

GEORGE FRANCIS TRAIN was arrested on Saturday evening week, on his arrival at Queenstown, by the British authorities, as a suspected Fenian. George says he was only going to Ireland as a correspondent of the *World*. He was afterwards released.

PRENTICE says Brownlow may go to the upper house in this world, but in the next he will go to the lower.

HOW GRANT KEEPS HIS WORD.

The special correspondents of the New York *Herald* and New York *World* agree in giving the following detailed account, evidently from high sources, of the manner in which Grant deceived the President:

There is not the slightest doubt that Grant admitted, in the presence of the Cabinet, a promise either to resign the Secretaryship of War or compel Stanton to get a mandamus to put him (Grant) out. Grant was very much confused and embarrassed at the meeting, and confessed that he had reiterated the promise on the preceding Saturday, when requested by the President to give a decided answer one way or the other. He confessed, also, that he had undoubtedly agreed to wait upon the President again on Monday, and excused himself in a stammering way by saying that he had been engaged with General Sherman and "other little matters" that day, and was thus prevented from keeping the engagement. He told the President that he was afraid of the provisions of the Civil Tenure of Office bill, and that he did not wish to encounter fine and imprisonment by opposing Stanton's reinstatement.

The President reminded General Grant that he had said that he (the President) would bear all the penalties and responsibilities that might be connected with opposing Stanton's reinstatement under the Civil Tenure bill; that if there should be any fine or imprisonment resulting from carrying out his (the President's) views in the matter, he (the President) would suffer them himself, and thus relieve Grant from any danger whatever. It was also pointed out to General Grant that on the Monday before Stanton's reinstatement he (Grant) could not have been engaged with General Sherman, as the latter had called on the President that day, while Grant had not done so. To this Grant made no reply. He was also reminded that he was present at the President's reception on Monday evening, when he said nothing whatever to the President about his change of views, but greeted Mr. Johnson in the usual way.

On Friday, January 17, another Cabinet meeting was held, and after the regular deliberations a long editorial published in the *National Intelligencer* on the 15th, giving an account of the understanding between the President and Grant, and corroborating the President's version of the affair, was read in the presence of Secretary McCulloch, Secretary Browning, Secretary Welles, Postmaster General Randall and Mr. Johnson. Each of these Cabinet officers stated then and there that the statement of the case as presented in that article was correct, but that it did not go far enough nor represent the matter in as bad shape as the truth would justify. Secretary Browning remarked that he had kept a pretty full record of the proceedings of the Cabinet meeting of Tuesday and of Grant's admissions at that time, and that the *Intelligencer* article stated the truth when it said that Grant had promised either to resign and give back possession of the War-office to the President in time to place the latter in the same position as when he appointed Grant Secretary *ad interim*, or to compel Stanton to resort to legal proceedings to obtain possession under the Civil Tenure bill. Secretary McCulloch remarked that he was surprised that Grant acted in such bad faith. Postmaster General Randall declared that the course of the General astonished him; that he did not expect to find him act so much "the sneak" and the deceiver. Secretary Welles declared that it appeared to him the true reason why Grant had promised to call on Monday, the 13th, was because he (Grant) supposed that the Senate would pass the reinstating resolution on Saturday, and thus the whole question would have been decided before the interview appointed for Monday could take place. By that time Grant would have turned over the War Office to Stanton and the President could not get possession except by resort to legal proceedings. The fact that the vote on the subject did not occur until Monday spoiled this scheme, and hence Grant did not call on the President on Monday.

ABOLISHING THE SUPREME COURT.

Under this title the Albany Evening Journal, whose Republicanism is not to be questioned, says:

"We read with astonishment and apprehension, in the dispatches of to-day, that a majority of the House judiciary committee have decided to report a bill providing that the Supreme Court of the United States shall have no jurisdiction in cases arising under the military reconstruction acts of Congress, and that no cases of this character shall be referred to it.

"Do the Republican leaders in Congress wish to justify the charge of the Democracy that they are bent upon usurpation and revolution? Have they become so indifferent to popular opinion that they are prepared to remove any obstacle which may be presented to their policy, regardless of every constitutional provision? We are not ready to believe this; yet we shall be compelled to do so if the purpose now announced is really carried into effect.

"The constitution of the United States provides that 'the judicial power shall (not may) extend to all cases of law and equity arising under' it; and particularly mentions among these, 'controversies to which the United States shall be a party.' It leaves Congress with no power to determine the jurisdiction of the court, but simply enables it to specify the method of its organization, and the manner in which its proceedings shall be conducted; for it will be at once perceived that if a majority in the legislature can prohibit the court from passing upon any particular class of cases which have become subjects of popular excitement, then the judiciary, so far forth, is virtually abolished, and there is no appeal for the citizen from the operations of a law, however obnoxious it may be in its provisions, to the principles of the constitution, or however subversive of personal rights. That questions like those arising under the reconstruction bills were intended to be embraced among those for which the creation of the court was authorized, is too plain to admit of dispute."

A ONE-SIDED "FIGHT."

One of the Radical organs says:

"The President, having been worsted in his fight with Congress, is anxious to transfer his share of the quarrel to the Supreme Court."

Let it be constantly borne in mind by the people, remarks the *Patriot & Union*, that the President has never made an attack upon the Rump Congress; never encroached upon any of its powers or privileges; never deprived it of any prerogatives or rights which the Federal Constitution grants to a full and lawful Congress—although the Rump is not such a body as that instrument contemplated and provided for. He has simply stood upon the defensive, warding off, as best he could, the unlawful and infamous blows leveled at his rights and prerogatives by the Rump traitors. In not a single instance has he taken or attempted to assume duties belonging to the congressional branch, whereas the Rump has, in scores of instances, usurped the duties and functions of his office. Few men would have exercised the forbearance which President Johnson has, under the multiplicity of wrongs which the Radical leaders have heaped upon him.

THE Government pays Gen. Grant about thirty thousand dollars a year. That is giving him a decidedly substantial testimonial of gratitude, and the people will not feel under any obligations to elect him President on a Radical platform.

THE principles of the Radical party are eternal.—*Radical Paper.*

Yes, eternal villainy, eternal stealing, and eternal nigger equality. Finally, eternal perdition.

A RADICAL paper doesn't like it because Gen. Hancock wears a civilian's dress in New Orleans. Most people will look upon the fact as an indication of his good sense.

THE CLOVEN HEEL CROPPING OUT IN THE SOUTH.

The Southern negro conventions are beginning to exhibit the croppings out of the cloven heel in an unmistakable manner. In the words of a local paper, "the Devil, with all his horns and hoofs," is beginning to show himself in earnest. In the Georgia Convention the white man is considered of no account in framing the new constitution. He is disfranchised without recourse, in many instances, while the negro is elevated to every prerogative hitherto enjoyed by the whites. The Radical negro's aim is not only at political equality, but at social equality with the whites. This was evinced in the tumultuous dismissal from the Convention of a proposition the other day to prevent the intermarriage of whites and blacks, and to banish to Liberia any magistrate or clergyman who should be found guilty of uniting such persons in marriage. In the indignation of the majority it was proposed to banish the proposer himself to Liberia without delay. The Georgia negroes demand equal *rights to* public conveyances, hotels, &c., with the whites, as in Louisiana. In the South Carolina Convention a large majority of the officers are blacks, and a black constitution will no doubt be born of the body. In the North Carolina Convention the blacks are so jealous of their position as the equals of the whites that reporters are excluded who shall dare to make any distinction of color in their records of the proceedings. This, however, is not the sentiment of all the black delegates, for one of them insisted on the color being reported, alleging that "if his white brother was ashamed of his color he (the black) was not of his." In Virginia a proposition to assist the emigration of the blacks of the State to the Western country, where they can live in the enjoyment of their freedom unmolested, was scouted at. The negroes mean to be at the head of affairs in Virginia, as in all the other proscribed States. The latest dodge is that they must have their share of the members of Congress; but they may be willing to compromise if their white allies will furnish each black aspirant with an equivalent for two year's Congressional service—sixteen thousand dollars.

Thus are the Radical revolutionists going on from bad to worse—from anarchy in Washington and negro supremacy in the South to open and corrupt bargains for political plunder. In all these croppings out of the cloven heel we see the tendency of the times—that the Radicals mean to secure perpetuation of political power by all the influences at their command, or that they intend to leave the government in a condition of inextricable confusion, riot and chaos.—*N. Y. Herald.*

The People Speaking!—Congress Denounced!—The President Sustained!

At a large and spirited meeting of the Young Men's Democratic Association of Pottsville, on the evening of the 22d instant, to discuss the revolutionary proceedings of Congress, telling speeches were made by Hon. W. P. Ryon, E. G. Scott, Esq., and others, and the following among other resolutions unanimously adopted:

WHEREAS, The revolutionary action of the Congress of the United States as manifested by the Supplemental Reconstruction bill; the bill subverting the powers of the Supreme Court; the interference with the Executive Department by controlling the position of Secretary of War; the attempted degradation of gallant and meritorious officers of the army solely for their known attachment to civil liberty, and the numerous instances of assumption of powers not warranted by the Constitution as exhibited by the general legislation of Congress during the past two years, have justly created apprehension and alarm; therefore,

Resolved, That for and in the name of the young Democracy, we solemnly *protest* against this infamous legislation on the one hand, and this indecent conduct on the other, and hereby pledge ourselves at the polls and in every lawful way, to so direct our action as to effect the repeal of such legislation and render opprobious such action.

Resolved, That the confidence expressed by Andrew Johnson in the young men of the country is reciprocated, and that to him are due the thanks of the nation for the intrepidity and firmness he has shown in defence of the Constitution, and we hereby pledge ourselves to stand by him in every emergency, and call upon the young men of the country to hold meetings and sustain him.

WE give the following article from the Richmond *Enquirer* as illustrating the need of a Freedmen's Bureau at the South. The incident is, we suppose, one of ten thousand similar ones, of daily occurrence in that section:

A gentleman from one of the neighboring counties, who desired to obtain a number of able-bodied negro laborers for his plantation, visited Richmond to procure them, having heard that there were hundreds of unemployed blacks lounging idly about the city. The morning after his arrival he was directed to one of the localities where large quantities of bread and soup are daily distributed by the Freedmen's Bureau. He found a ragged, hungry horde of nearly five hundred persons, assembled to receive their usual supplies of food. To his astonishment, these applicants for soup and bread were not all women and children. He counted one hundred and eighty able-bodied negro men, capable of performing every variety of farm labor. There they were with every conceivable variety of vessel, waiting hours to be fed by the Bureau. To many of these hulking idlers he offered the highest wages paid to agricultural laborers, and abundant rations of good, wholesome food. *But they all refused to enter his service, alleging among other reasons that they were fed by the Bureau, and did not wish by leaving Richmond to forfeit their right to vote!*

THE waning popularity of General Grant with the people, since his recent duplicity in the Stanton imbroglio, is every hour becoming more apparent. A notable illustration of this fact lately occurred at a popular theatre in New York. One of the actors introduced into a new piece the old expression of "fighting it out on that line," etc., and met with a storm of hisses from all parts of the house. A proposition to give "three cheers for Andrew Johnson" was received with great applause, and the audience joyfully and promptly assented to the patriotic suggestion. Those astute politicians in the Radical ranks who shouldered the General on account of his supposed availability, will soon drop him and look out for a new man and better candidate. But if he should run for the Presidency on the negro-suffrage platform, the Radical millstone around his neck will sink him deeper than plummet ever sounded, and the prophecy of the New York *Herald*, that he will be worse beaten than General Scott in 1852, will be certainly realized.—*Age.*

THE northern soldiers seem to have made up their minds quite generally that the "boys in blue" will no longer run with the political machine of the *boys in black*. They discover that the Mongrel party meant to use them for no better purpose than freeing negroes, and that now they want to use their votes to bring and keep them down to a level with negroes. The "boys in *blue*," therefore, are very rapidly turning politically *white*.—*Exchange.*

THE Radical State Convention will meet at Philadelphia on the 11th of March.

LETTER FROM HARRISBURG.

HARRISBURG, Jan. 28, 1868.

Ed. Compiler:—Your Damage bill was presented in the House, by Mr. Wingert, of Franklin county, one day last week, and, contrary to the general usage, was referred to the Military Committee by the Speaker. Last year it was referred to the Committee of Ways and Means. This act of the Speaker, by referring it to the Military Committee, is received by its friends as a great gain. In the latter Committee it has some chance, whereas in the former there would have been no chance at all, as its chairman, Mr. Mann, is the greatest enemy in the House to your claim. The friends of the bill are now full of hope.

A somewhat amusing incident to the Democratic side of the House occurred last night. Mr. Armstrong, one of the nine "bolters," offered a resolution for the appointment of an additional Transcribing Clerk, a particular friend of his. Mr. A. accompanied his resolution with some remarks, in which he stated that he was promised this extra favor—that *it was in the bargain*. This tickled the Democratic side somewhat, which gave considerable uneasiness to the Rads. Some of them jumped up apparently in great rage, denying any such bargain having been made with the "bolters." Mr. A. retorted by re-asserting what he had said before, and seemed to be equally wrathy. Some of the Democrats began to tease them a little, when a call of the question was made by a good many Republicans, and the resolution was lost. It is too bad to be thus cheated by his friends. Some of the Democrats called for the article of agreement, and requested that it be read by the clerk. It afforded considerable amusement to the Democratic side, and considerable restlessness on the part of the Republicans.

A bill to repeal the act of last session incorporating the Gettysburg Asylum for Invalid Soldiers, was also presented yesterday. A similar bill is before the Senate.

The bill confirming the action of the majority of the Commissioners appointed for the purpose of changing the location, &c., of a portion of the State road between Harrisburg and Gettysburg, was passed on Friday. It had passed the Senate some days previously.

This is the fourth week of the session and only about half a dozen bills were passed so far. This seems like retrenchment and reform, eh! What will the hard laborers say?—does it accord with their notions of retrenchment?

There will be a good deal of special legislation again this session, if I may judge from appearances thus far.

Mr. Armstrong, the "cheated bolter," also offered a resolution yesterday endorsing the conduct of Gov. Geary in witholding the appropriation for the Antietam Cemetery, and called for the yeas and nays. By this the Republicans thought to put the Democrats in the position of favoring the rebels. Mr. Chalfant, from Montour, a sound and able Democrat, answered this move by some wholesome remarks, which made the Republicans fairly quiver in their seats. It seemed as if they were, as they ought to have been, ashamed of themselves. The Democrats faced the music and gave a solid vote against such narrow-souled action.

A. L.

WHAT A SOLDIER THINKS.

The *Union*, published at Madrid, Maine, gives the following extract from a letter written by one of the soldiers in the Sixth Maine regiment. It indicates very distinctly the immense change which is going on in public opinion in regard to the Radicals. This soldier veteran says:

I have been a Republican five years. I fought the South in arms three long years. I marched over desolated fields and grounds deluged with blood. I thought, as scores of others did, that I was fighting for our old flag and the Constitution, but I was greatly mistaken. I found out before the close of the war that I was fighting to keep an army of plunderers in power. I think that they have been kept in power a little too long for the country's good. It is time they were relieved. I think there are honest men enough to rule the nation. The Republicans have had a fair trial and they have proved themselves incompetent. We ask them to stand back, and give place to a better class of men. This they must do no matter how much they dislike the idea. I for one will never consent to be ruled by a negro! The Republicans must remember that there are in the loyal States one million soldiers who will not be ruled by negroes, nor consent to see any portion of our own white race thus degraded! No, never!

IT was fondly supposed that the supplementary reconstruction bill now pending in the Senate, and which is the fourth of the series, would be a finality. It has been discovered, however, that the regal powers which are therein conferred upon General Grant can be swept away by a single breath of the Executive. The law which revived the grade of General expressly provides that the officer appointed to fill that position shall command the armies of the United States "under the direction and during the pleasure of the President." By this law, passed less than two years ago, the President can, at any moment, designate another general-in-chief. The military committees of the two houses are hard at work to devise some plan to meet this new difficulty, and in a few days we may, in the language of Fernando Wood, expect another monstrosity to be revealed to the gaze of the country. The truth is, this whole reconstruction policy of Congress is very much like a leaky vessel; for every hole that is patched up two new ones are discovered.—*Lancaster Intelligencer.*

WASHINGTON, January 27.—There have been received here by Republican members of Congress such vigorous protests of Republican constituents against the last reconstruction bill adopted by the reconstruction committee, forbidding adjudication by the Supreme Court in causes arising under the reconstruction acts, that it is not believed the committee will urge the bill on the House, and, from authentic sources, it is learned that the proposed measure will be reconsidered by the committee and ignored.—Democratic members say they prefer to have the bill tested by a vote in the House, and let the result go to the people in the coming contest for President.

DAVID MCCONAUGHY, (a person who occupies a place in the State Senate to which he is not entitled because not elected to it by the people) opposed a judicial district bill, the other day, because he "saw every Democratic Senator voting for it." David is one of those extra sharp individuals who sees through two pair of eyes and is always "smelling a mice."—*Patriot & Union.*

And has all his life been trying to make people believe him "important," as well as "sharp"—but where known has never had credit for being either.

THE Radical leaders fear the people, hence their eagerness to overthrow this Government and establish a military despotism.

THE Hartford *Times* pronounces the Radical party in Connecticut as past praying for.

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

Petition.—Mr. Heltzel, on Friday last, presented a *petition for damages* from citizens of Adams county.

Returned.—Col. McClure returned to Chambersburg from Montana, on Friday last.

Error.—A sale of Gettysburg National Bank stock was reported in our last at $81 25 per share. It should have been $62 20. The par value is $50.

Thanks.—Our thanks are due to Hons. Fernando Wood and S. J. Randall, of the House at Washington, for Congressional favors, and to Hon. N. Heltzel, of the House at Harrisburg, for Legislative documents.

Settled.—Messrs. J Franklin Culp and James Lashell, lately of this place, have hung out their shingle as house and sign painters and paper hangers, at Macon, Ill.

Big Load.—The fine six-horse team of Hezekiah Latshaw, Franklin township, brought to town, on Monday, a load of wood which ranked full 4½ cords—said to have been the largest load ever delivered here.

Lecture.—Rev. De Witt Talmage delivered his lecture on "Grumbler & Co." to a large audience, in Agricultural Hall, on Tuesday evening. It was frequently applauded. Dr. Coppee, of Lehigh University, is to be the next Lecturer.

United States Taxes.—By the amendatory act of March 2, 1867, all returns of incomes and special taxes are required to be made by the first day of March, under a penalty of *fifty per cent. additional.*

Leg Broken.—We regret to learn that Mrs. Klunk, wife of Jacob Klunk, Esq., of Germany township, on the 24th inst., slipped upon the ice and fell, breaking a leg, between the knee and ankle joints. Dr. T. O. Kinzer was called in, who gave the case proper attention, and the sufferer is getting along as comfortably as could be expected.

Sales.—More than three columns of personal property sales will be found on the next page. The COMPILER having a larger circulation in Adams county than any other journal, it is of course the best medium through which to reach county readers—and advertisers know it. Attention is directed to the sales advertised, as well as to advertisements generally.

Important to Soldiers.—By a recent decision of the Court of Claims, the members of the following Penn'a. regiments are entitled to $100 bounty: 26th, 27th, 28th, 29th and 71st; also, all persons who enlisted between April 15th and July 22d, 1861, and were discharged upon surgeons' certificates of disability and received no bounty. So says an exchange.

Handsome "Donation."—Sheriff Hann was the recipient, by Express, last week, of a very desirable present, from his son Hillery, residing in St. Joseph's, Mo. It consisted of a box, with a quarter of venison, several prairie chickens, and a monster wild turkey, snugly packed therein. We were one of a dozen to make the first attack upon the turkey, but his eighteen-pounder-ship held out through that and a succeeding table. He afforded glorious cutting and ditto eating. Oh for a score of *thoughtful* relatives or friends in the "far West" about this time of year!

Arrested.—Samuel McDonald and Valentine Williams were arrested at Fairfield, this county, a few days ago, by Constable McCleaf, on the charge of having robbed the store of Dr. James W. Miller, in Frederick county, (near Mechanicstown,) of ready-made clothing, cloth, &c., to the value of about one hundred dollars. A part of the clothing was found with them, they having intended to make sale of it at Fairfield on Wednesday. Upon their arrest, they were brought to this place and lodged in jail. The Sheriff of Frederick county is expected here soon, to take them away, on a requisition from the Governor. McDonald and Williams come from "nowhere," and are said to be a hard looking pair.

Mill Burned.—The large three-story grist mill, long known as Frantz's, belonging to Frederick Foreman, on West Conococheague creek, in Montgomery township, Franklin county, was entirely destroyed by fire, on Friday evening last. The mill had been but lately repaired, and one of the gudgeons working too tightly, produced friction, from which the fire resulted. There were five thousand bushels of wheat in the mill, all of which was lost. The mill and machinery were estimated to be worth $10,000.

A NEGRO KILLED.—On Friday afternoon last, two negroes in the employ of Mr. Alexander Hooper, living on the line of the railroad, about six miles from Westminster, got into an altercation, which led to blows. In the melee one of the negroes, named John Mack, struck the other a heavy blow on the head with a club, mashing in his skull, and inflicting injuries from which he died. The deceased was named Jones, and hailed from Virginia. Justice Azariah Oursler held an inquest upon the body, and the evidence showed that the act was a cold-blooded one, Jones being disposed to get out of Mack's way, and the blow was dealt when he was unprepared. Mack has not yet been apprehended.—*Westminster Advocate.*

OUTRAGE BY NEGROES.—A dispatch from Jackson, Mississippi, says: In Jasper county, on the 25th and 26th, a squad of freedmen who were charged with stealing hogs, waylaid a constable's posse who where searching for them with a warrant for their arrest. An affray ensued, and two white men were killed, one mortally wounded, and five others severely. Only one negro was wounded and arrested. Several parties are searching for the perpetrators.

Eminent men of Science have discovered that electricity and magnetism are developed in the system *from the iron in the blood*. This accounts for the debility, low spirits and lack of energy a person feels when this vital element becomes reduced. The Peruvian Syrup, a protoxide of iron, supplies the blood with its iron element and in the only form in which it is possible for it to enter the circulation.

"*Prevention is better than Cure*," is an old adage, and must have been written before Coe's Dyspepsia Cure was discovered, for one bottle has, in many instances, cured Dyspepsia in its worst form, whereas it would take one a life-time to learn to so live to prevent this troublesome disease.

JUSTICE GRIER, of the United States Supreme Court, was so feeble that, the other day, he was taken into the court room on the shoulders of a negro.

THE assault of the Rump upon the Supreme Court is to prevent the Judiciary from asserting the supremacy of the Federal Constitution.

"The Gettysburg Asylum."—Mr Van Wyck, member of Congress from New York, in a recent report to that body, pretty thoroughly exposes the "Gettysburg Asylum" lottery scheme. It appears from this that a wealthy tobacconist of New York, John Anderson, during the war, invested largely in diamonds, (a portion turning out *bogus*.)—Upon the close of the war, and the fall in gold, these diamonds rapidly depreciated, and Anderson cast about for some plan to make himself "whole." Calling in E. Freund, D. A. Edgerton and J. T. Dickinson, old lottery dealers, it was decided to get rid of the "jewels" through an immense lottery scheme, under the popular idea of benefiting disabled soldiers. To give color to the undertaking, an agent was sent to Gettysburg to secure ground for the location of the proposed Asylum, and he contracted with Judge Ziegler for a number of acres. The next move was for a charter, but it was found that the Constitution of New York prohibited the incorporation of such questionable organizations.—Pennsylvania was then looked to, and the coast being found clear, the *bogus* scheme was placed in McConaughy's hands, to be engineered through the Legislature—and it passed.

It may here be said, parenthetically, that McConaughy, upon returning home, seemed to feel special pride in the fact, and to claim importance for it, that in getting this bill through he had "shrewdly" secured, *as a condition*, a large *bonus* for his "battlefield memorial association."

To give the scheme a "takey" look, the names of Gen. Meade and other prominent gentlemen were connected with it. A flaming advertisement promptly appeared in the newspapers, inviting "the whole world and the rest of mankind" to buy "tickets" in the "patriotic" enterprise. An office was opened in Philadelphia, and the diamonds there displayed. The Attorney General of the State "smelt a mouse," and threatened legal proceedings against the swindling concern. Gen. Meade opened his eyes, and withdrew from all connection with it. This fell like a wet blanket upon the scheme, and the diamonds were taken back to New York. Dead for a while, it started up again some months ago, after somehow securing exemption from government tax. Mr. Van Wyck agitated the matter in Congress, and his report, exposing the *bogus* character of the affair, is the result. Of course the permit to go on without paying the government tax, has been withdrawn.

Bills have been introduced in both Houses of the State Legislature, to repeal the charter. There is a disposition to give sufferers by the swindle a remedy, and provide punishment for those concerned in it. May *all* be reached.

Court.—The following cases were tried at Court last week:

COMMON PLEAS.

Peter Diehl vs. The Adams County Mutual Fire Insurance Company.—Action to recover for insurance on tannery. The insurance was granted on the tannery without steam. Subsequently Mr. Diehl leased the tannery to his sons, who introduced a steam engine. A few months after a portion of the buildings burnt. The Company refused to pay, and Mr. Diehl brought suit, alleging that he had given notice to the Company—that one of the managers had examined the premises—and that an assessment had been made on the premium note, &c. The Court took the ground that the policy itself, which was the evidence of contract between the parties, expressly provided that the change should suspend the policy, unless such change was made by the consent of the Company and endorsed on the policy. Notice of change was not sufficient; nor was it in the power of an agent or manager to change the contract. The jury, under the instructions of the Court, rendered a verdict for Defendants.

Jonathan B. Myers vs. Gibson Myers—Summons in Partition. Plaintiff claimed the undivided half of a tract of 66 acres of land, with improvements, in Reading township. Defendant resisted on ground that the Plaintiff had not paid one-half of the purchase money. Verdict for Plaintiff, that he have equal partition of the land.

QUARTER SESSIONS.

Com. vs. Isaac Kane.—Indicted for stealing a horse, the property of Jacob R. Witmor. Defendant had been indicted with John Ulrich, who, however, plead guilty at the April Term, 1866, and was sentenced to the Penitentiary for two years. Kane was subsequently tried and found guilty, but a new trial was granted. Last week he was re-tried, found guilty, and sentenced to the Penitentiary for one year and eight months.

Com. vs. Abraham Trostle.—Assault and battery, on information of Samuel Shelly, tax collector for Huntington township. Defendant refusing to pay his taxes, Shelly threatened to make a levy, whereupon the assault was committed which led to this suit. Found guilty, but sentence postponed.

Com. vs. Christian Hoffman. Assault and battery, on information of Lewis Kummerant. Verdict guilty, and sentenced to pay fine of $5 and costs.

Com. vs. Samuel Stanton—Surety of the Peace, on information of David Robison. On hearing of parties, complaint dismissed.

The Grand Jury approved the view for a bridge over Willoughby's run, on the road leading from Gettysburg to Fairfield.

540 MILES

OF THE

UNION PACIFIC RAILROAD,

Running West from Omaha

ACROSS THE CONTINENT,

ARE NOW COMPLETED,

THE TRACK BEING LAID AND TRAINS RUNNING

Within Ten Miles of the Summit

OF THE ROCKY MOUNTAINS.

The remaining ten miles will be finished as soon as the weather permits the road-bed to be sufficiently packed to receive the rails. The work continues to be pushed forward in the rock cuttings on the western slope with unabated energy, and a much larger force will be employed during the current year than ever before. The prospect that the whole

GRAND LINE TO THE PACIFIC

WILL BE COMPLETED IN 1870,

was never better. The means so far provided for construction have proved ample, and there is no lack of *funds for the most vigorous prosecution of the enterprise.* These means are divided into four classes:

1.—UNITED STATES BONDS.

Having thirty years to run, and bearing six per cent. currency interest, at the rate of $16,000 per mile for 517 miles on the Plains; then at the rate of $48,000 per mile for 150 miles through the Rocky Mountains, then at the rate of $32,000 per mile for the remaining distance, for which the United States takes a *second lien* as security. The interest on these Bonds is paid by the United States government, which also pays the Company one-half the amount of its bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the Company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien.

2.—FIRST MORTGAGE BONDS.

By its charter the Company is permitted to issue its own Mortgage Bonds to the same amount as the bonds issued by the government, *and no more, and only as the road progresses.* The Trustees for the Bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of the U. S. House of Representatives, who are responsible for the delivery of these Bonds to the Company in accordance with the terms of the law.

3.—THE LAND GRANT.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1 50 per acre, at the lowest valuation.

4.—THE CAPITAL STOCK.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which $8,500,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties (who have already finished over 540 miles), at the average rate of sixty-eight thousand and fifty-eight dollars ($68,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations, and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling stock, *to an amount that shall not be less than* $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Union Pacific Company to be $90,000 per mile,

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $68,058 ... $62,205,012
186 miles, at $90,000 ... 16,740,000
Add discounts on bonds, surveys, &c. ... 4,500,000
Amount ... $83,445,012

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds ... $29,128,000
First Mortgage Bonds ... 29,128,000
Capital Stock paid in on the work done ... 8,500,000
Land Grant, 14,080,000 acres, at $1 50 p. a. ... 21,120,000
Total ... $87,876,000

The Company have ample facilities for supplying any deficiency that may arise in means for construction. This may be done wholly or in part by additional subscriptions to capital stock.

EARNINGS OF THE COMPANY.

At present, the profits of the Company are derived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is completed the through traffic of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Railroad is, in fact, a *Government Work*, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based upon a larger or more valuable property. As the Company's

FIRST MORTGAGE BONDS

are offered for the present at NINETY CENTS ON THE DOLLAR, they are the cheapest security in the market, being more than 15 per cent. lower than U. S. Stocks. They pay

SIX PER CENT. IN GOLD,

or over NINE PER CENT. upon the investment, and have thirty years to run before maturity.

Subscriptions will be received in GETTYSBURG, by GETTYSBURG NATIONAL BANK and FIRST NATIONAL BANK, and in New York at the Company's Office, No. 20 Nassau street, and by

CONTINENTAL NATIONAL BANK, No. 7 Nassau street,

CLARK, DODGE & CO., Bankers, No. 51 Wall st.,

JOHN J. CISCO & SON, Bankers, No. 33 Wall st.,

and by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A NEW PAMPHLET AND MAP, showing the Progress of the Work, Resources for Construction, and Value of Bonds, may be obtained at the Company's Offices or of its advertised Agents, or will be sent free on application.

JOHN J. CISCO, Treasurer, New York.

SPECIAL NOTICES.

Iron in the Blood.

The necessity of a due proportion of Iron in the blood is well known to all medical men; when it becomes reduced from any cause whatever, the whole system suffers, the weakest part being first attacked, and a feeling of languor, lassitude and "all goneness" pervades the system. The remedy is simply to supply the blood with the necessary quantity of iron. This can be done by using the

PERUVIAN SYRUP,

a protected solution of the protoxide of Iron, which is so prepared that it assimilates at once with the blood, giving strength, vigor and new life to the whole system.

To take medicine to cure diseases occasioned by a deficiency of IRON IN THE BLOOD, without restoring it to the system, is like trying to repair a building when the foundation is gone.

An eminent divine says: "I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

Pamphlets containing certificates of cures, and recommendations from some of the most eminent physicians, clergymen and others, will be sent free to any address.

The genuine has "PERUVIAN SYRUP" blown in the glass.

GRACE'S CELEBRATED SALVE.

From Mr. E. Tucker, Depot Master at Salisbury, Mass.

"I have been troubled for years with a bad humor; sometimes outwardly, and sometimes inwardly. During the past summer it manifested itself more than usual outwardly, and I used your Salve. All signs of it have since disappeared, without affecting me inwardly, indicating, I think, the eradicating nature of the Salve."

To Owners of Horses.

Thousands of Horses die yearly from Colic. This need not be. Dr. Tobias' Venitian Horse Liniment will positively cure every case, if given when first taken. The cost is only one dollar. Every owner of a horse should have a bottle in *his stable, ready for use*. It is warranted superior to anything else for the cure of Cuts, Wind Galls, Swellings, Sore Throat, Sprains, Bruises, Old Sores, &c. This Liniment is no new remedy. It has been used and approved of for 21 years by the first horsemen in the country. Given to an over-driven horse, it acts like magic. Orders are constantly received from the *racing stables of England* for it. The celebrated Hiram Woodruff, *of trotting fame, used it for years*, and said it was far superior to any other he has tried. Recollect, Dr. Tobias' Venitian Horse Liniment is put up in pint bottles. Take no other. Sold by the Druggists and Saddlers. Depot, 56 Courtlandt Street, New York.

The Aldine

Universally admitted to be the most artistic specimen of Illustrated Journalism ever produced in this or any other country.

THE ALDINE:

An Illustrated Monthly Journal, claimed to be the Handsomest Paper in the World.

THE ALDINE, while issued with all the regularity, has none of the temporary or *timely* interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes *for ten times the cost.*

The publishers have purchased and reproduced, at great expense, the beautiful oil painting by Seis, entitled

“DAME NATURE'S SCHOOL.”

The Chromo is 11 by 13 inches, and is an exact fac-simile of the splendid original.

Three little Ducklings, just emerged from their shells, are thus early learning the elementary principles of their education. They seem to obtain their information from the fountain head, and are getting on swimmingly. This beautiful picture is presented *FREE TO ALL* yearly subscribers to THE ALDINE for 1872.

THE NOONING.—After the original by DARLEY in the possession of the American Bank Note Company.—*From THE ALDINE for January.*

AMERICA.

“I love thy rocks and rills,
Thy woods and templed hills.”

The glories of the unrivalled scenery of our country afford an exhaustless field for the exercise of the painter's art. Many attempts have been made to gratify the popular longing for scenes of “home, sweet home,” but it will be universally acknowledged that, so far as our illustrated periodicals are concerned, such attempts have hitherto proved miserable failures—mere caricatures or topographical diagrams rather than pictures. It remains for the publishers of THE ALDINE to inaugurate an artistic movement that shall be worthy of the subject—that shall give American scenery its rightful preeminence in the pictorial world.

The wildest splendors of Adirondack scenery have been traced by loving pencils of veteran sojourners. The “Old North State”—The Blue Ridge—The Alleghanies—The Yosemite—The Great Plains—even the most remote sections of our country have received that attention which will be manifest in the pages of THE ALDINE during the coming year. These pictures will not be mere sketches, in the ordinary acceptation, but careful and finished designs, of far more artistic merit than most of the “steel engravings” that sell for the price of a year's subscription to THE ALDINE.

While great attention will be paid to Landscape it must not be inferred that figure drawing will not be well represented. Character sketches and illustrations of popular poems will be a prominent feature—and “Our Feathered Pets” the common birds of America, will be portrayed as nearly to the life as it is in the power of pencil and graver to accomplish.

HOOFLAND'S
GERMAN BITTERS,

AND

Hoofland's German Tonic.

[illegible]

THE GREAT REMEDIES,

FOR ALL DISEASES OF

THE LIVER, STOMACH, OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medicinally termed, *Extracts*) of Roots, Herbs, and Barks, making a preparation, highly concentrated, and *entirely free from alcoholic admixture of any kind.*

HOOFLAND'S GERMAN TONIC

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum, Orange, &c.*, making one of the most pleasant and agreeable remedies ever offered to the public.

Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters.

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medical virtues, the choice between the two being a mere matter of taste, the Tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

CONSTIPATION, FLATULENCE, INWARD PILES, FULLNESS OF BLOOD TO THE HEAD, ACIDITY OF THE STOMACH, NAUSEA, HEART-BURN, DISGUST FOR FOOD, FULLNESS OR WEIGHT IN THE STOMACH, SOUR ERUCTATIONS, SINKING OR FLUTTERING AT THE PIT OF THE STOMACH, SWIMMING OF THE HEAD, HURRIED OR DIFFICULT BREATHING, FLUTTERING AT THE HEART, CHOKING OR SUFFOCATING SENSATIONS WHEN IN A LYING POSTURE, DIMNESS OF VISION, DOTS OR WEBS BEFORE THE SIGHT, DULL PAIN IN THE HEAD, DEFICIENCY OF PERSPIRATION, YELLOWNESS OF THE SKIN AND EYES, PAIN IN THE SIDE, BACK, CHEST, LIMBS, ETC., SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH, CONSTANT IMAGININGS OF EVIL, AND GREAT DEPRESSION OF SPIRITS.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, purchasing only that which he is assured from his investigations and inquiries possesses true merit, is skillfully compounded, is free from injurious ingredients, and has established for itself a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—

HOOFLAND'S GERMAN BITTERS

AND

HOOFLAND'S GERMAN TONIC.

PREPARED BY *DR. C. M. JACKSON,*
PHILADELPHIA, PA.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Disease of the Kidneys, and all Diseases arising from a Disordered Liver, Stomach, or Intestines.

DEBILITY,

Resulting from any Cause whatever; PROSTRATION OF THE SYSTEM, induced by Severe Labor, Hardships, Exposures, Fevers, &c.

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, with all its attendant ills, will find in the use of this BITTERS, or the TONIC, an elixir that will instill new life into their veins, restore in a measure the energy and ardor of more youthful days, build up their shrunken forms, and give health and happiness to their remaining years.

NOTICE.

It is a well-established fact that fully one-half of the female portion of our population are seldom in the enjoyment of good health; or, to use their own expression, "never feel well." They are languid, devoid of all energy, extremely nervous, and have no appetite.

To this class of persons the BITTERS, or the TONIC, is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietors, but space will allow of the publication of but few. Those, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

Hon. Geo. W. Woodward,

Chief Justice of the Supreme Court of Pa., writes:

Philadelphia, March 16, 1867.

"I find 'Hoofland's German Bitters' is a good tonic, useful in diseases of the digestive organs, and of great benefit in cases of debility, and want of nervous action in the system. Yours truly,

GEO. W. WOODWARD."

Hon. James Thompson,

Judge of the Supreme Court of Pennsylvania.

Philadelphia, April 28, 1866.

"I consider 'Hoofland's German Bitters' a *valuable medicine* in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,

JAMES THOMPSON."

From Rev. Joseph H. Kennard, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

Dr. Jackson—Dear Sir: I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that, *for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation.* In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates St.

From Rev. E. D. Fendall,

Assistant Editor Christian Chronicle, Philada.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic to all who are suffering from general debility or from diseases arising from derangement of the liver. Yours truly,

E. D. FENDALL.

FRIDAY, JANUARY 31, 1868.

What is the Best Temperature of Stables for Wintering Stock?

The temperature of stables best adapted for the health and thrift of animals is scarcely ever discussed. We do not remember to have seen any account of experiments made in this country to determine the point. Some farmers talk about very warm stables as the best for wintering stock, saying that the more warmth you get, the less food is required. Others would have stables quite cool, at least at that degree of temperature which results from boarding the sides up and down after the old-style of barns, leaving the cracks or jointings between the boards open. They contend that in such quarters stock comes out more healthy and lively in spring, and that if it does take a little more fodder, the gain is greater on account of the more robust condition of the animals.

We remember to have heard this matter discussed by two extensive and experienced dairymen at the meeting of a town club, the one advocating stables built with stone walls and partly underground, and the other, stables standing high and with the old fashioned siding referred to. The latter disputant referred to some experiments which he had made to test the matter. He had two stables of the description named—the one sided up with boards, and the other with walls, and partially under ground. He divided his stock, keeping about half in each.—Those under ground consumed the least food, but on turning them out to water, the cold air seemed to pierce them through and through. They were shivering with cold even in moderate weather, while the others seemed warm and comfortable. Toward spring he found them in a weak and unhealthy condition, and he was convinced the animals had been kept too warm. Hence he had abandoned the stable, and had never used it after for wintering stock.

Of course there are extremes which must be avoided. If the stable is too cold, there will be a waste of fodder to keep the stock warm. If the stable is too warm, the animals will be subject to disease and in bad health, and the loss from the latter evil will, perhaps, overbalance that of the former.

From experiments made in England *for the purpose of seeing* at what degree of temperature different animals thrive best and put on fat, it was found that the temperature between 55 and 90 degrees was conducive to the best results for animals of the short horn breed; and it was found that oxen sweat at a temperature in which heifers thrive admirably.

The question is of more importance than one would naturally suppose from the small amount of investigation that has been bestowed upon it. Are we to run the risk of wasting expenditure of food by perspiring under excessive heat, or are we to induce the animals to waste it to keep up animal heat by exposure to too much cold? And, then another question comes in here—will not different classes of animals, as well as animals of the same class, but of different ages, be subject to different consequences from the same degree of heat? In the same stables some animals may be too hot and others too cold from different constitutions.

It would seem that we need some carefully conducted experiments to arrive at a point which may be regarded as a standard. Our barns are now being constructed so that temperature can in a great measure be controlled, and if there is a degree of temperature where animals thrive best, and at the same time with the most economical use of food, the fact is worth knowing. Our practice is very imperfect, and you can scarcely find any farmer who has given a thought to the subject, and yet in his practice he may be losing money in a useless waste of food or imperiling the health of his stock. The question seems the more important to us, at this time, because the price of hay and grain, as well as stock, seems to be growing dearer and dearer every day. In many sections of the dairy region the barns are being torn down and improved buildings erected. If we knew just what was best and most economical, our buildings could be arranged to meet these conditions. We do things often too much by guess, and guess work often makes a waste of money.—*Utica Herald.*

HOW TO STEW OYSTERS.—We suppose that nine out of ten housekeepers will contradict us point blank, in a statement that nine out of ten of them do not know how to stew a dish of oysters. By the ordinary routine that nearly every one follows, either the oysters are stewed and shrivelled out of all semblance to themselves in shape, size and flavor, or else the soup and "thickening" has a raw taste that spoils it. Here is the right method. Try it once, and we'll warrant you won't need telling the second time. Pick the oysters out of the juice, thickening, milk or water, of which the soup is to be made, until thoroughly cooked; then drop the oysters in, and just as the cooled soup begins to show signs of simmering, empty all out together, and you will have rich soup and plump oysters, luscious enough to make you think you never tasted *real* oysters before.—*Exchange.*

COLD FEET.—Cold feet are a general affliction, and cures for them are in demand. A contemporary says that it is assured by one who has given the experiment a trial, that cold feet and especially those superlatively rigid feet that are *kept chilled by perspiration*, may be relieved by a simple expedient. This is to wear cotton socks next to the skin and woolen socks outside of them. It states that "in the instance of our informant, the result was successful in keeping his feet warm and dry. The singular consequence also caused, that at night he would find the cotton socks (next his skin) quite dry, while the outside woolen stockings would be very damp."

IF every farmer who eats a fine pear would save and plant the seed, and after planting, note the progress of the young trees, we should soon have a much larger and better variety of pears than at present. Some of the very best varieties of pears now on the list, have been the result of this practice on the part of a few careful fruit growers.

APPLE PIQUE.—Peel and stew some apples in a rich syrup; do not let them break. Place them in a glass dish half full of the syrup, and put a piece of currant jelly on the top of each apple.

A BOY in Louisville, who had been reduced to great debility by frequent and copious bleeding at the nose, for which the physicians could not account, sneezed out a thorn a few days ago, when the hæmorrhages ceased, and he is now regaining his strength.

WHAT is the difference between a railway train and a suspending bank? In one case the brake causes the stoppage, in the other the stoppage causes the break.

ORGANS AND MELODEONS.

These Instruments stand unrivalled by any thing found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round Tone, the essential feature in instruments of this class. PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, *giving the sympathetic sweetness of the human* voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

SEWING MACHINES.

The Grover & Baker.—The Best in Use.

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

☞Needles and Thread will also be supplied.
